Networking Reception: A Night of Color and Connection at the 74th Bangkok Gems & Jewelry Fair

Mr. Surinthorn Sunthonsanan, Deputy Director-General of the Department of International Trade Promotion (DITP), and Mr. Sumed Prasongpongchai, Director-General of the Gem and Jewelry Institute of Thailand (GIT), co-hosted the **Networking Reception** at the 74th Bangkok Gems and Jewelry Fair, welcoming entrepreneurs, buyers, business leaders and partners from around the world. The evening provided a dynamic setting for networking, exchanging ideas and strengthening business connections across the global gems and jewelry community.

The Networking Reception is one of the Fair's key highlights, extending Bangkok Gems beyond a platform for product showcases and business negotiations into a space where buyers, manufacturers, designers, gemstone traders and industry professionals can connect, exchange insights, meet new partners and build relationships that can develop into long-term business collaborations.

The event also highlighted the key strengths of Thailand's gems and jewelry industry, including its expertise, quality, standards and reliability — foundations that are essential to building international trade relationships and reinforcing Thailand's position as one of the world's important gems and jewelry hubs.

The evening further reflected Thailand's drive to elevate its industry from manufacturing strength toward greater value creation through creativity and design. Highlights such as The Designer Zone connect the capabilities of Thai designers with experienced manufacturers, while The Craft of Brilliance traces the evolution of Thailand's industry from its foundations in craftsmanship and knowledge to technology, innovation and future creativity.

The 74th Bangkok Gems and Jewelry Fair is being held from 8–12 September 2026 at the Queen Sirikit National Convention Center (QSNCC). The Fair showcases products and solutions spanning the entire jewelry value chain, from gemstones and raw materials to finished jewelry, machinery, technology and manufacturing services. Complementing the exhibition are business-matching activities, expert-led seminars and international networking opportunities, further reinforcing Bangkok's role as a key meeting point for the global gems and jewelry community.
